

## Golden CommPass has been praised by PC Magazine —

"Golden CommPass, a specialized communications package for retrieving and managing CompuServe and ZiffNet messages, showed OS/2's potential and won our nod as one of the best products of the year."

— January 12, 1993

## Here's what some of our users think —

"Golden CommPass has certainly changed my approach to CompuServe. It amazes me to sit in my home in Edmonton, Alberta and have an *almost* ordinary conversation with someone from Australia without it costing a fortune."

— David Loewen

"I've definitely decided to stay with OS/2 instead of Windows. A little program called Golden CommPass has shown me the real power of multithreading."

— Steven M. Jones

"Golden CommPass is clearly the most pleasant and economical way for OS/2 users to access CompuServe and ZiffNet."

— Scott McGrath

"Now I can download files and messages in the background while I develop programs in the foreground. This is the best OS/2 application I've seen yet!"

— Ron Hill

## Good communicators know how to get what they want without wasting words.

If you're a member of **CompuServe**, you have access to the world's largest personal information service. If you're an **OS/2 user**, you have an operating system with unequalled versatility and reliability. If you're ready to reap the rewards of what these two can do together, then take a look at **Golden CommPass**, the *only* OS/2 software to fully automate your on-line sessions with CompuServe forums, libraries and mail.

## With Golden CommPass you can make all your choices before you go on-line.

**Time is money** when you're connected to CompuServe, and **Golden CommPass** saves you both.

**Want to join forums?** Just scroll down the list, and point and click. **Golden CommPass** logs on, joins and logs off.

**Want to read forum messages?** **Golden CommPass** retrieves and saves message subject lists for each forum you've selected. Peruse them at your leisure and mark any and all that interest you. When you tell **Golden CommPass** to log on again, it grabs the messages and logs off. You can also retrieve library lists and files with the same simplicity and convenience.

**Want to send electronic mail?** Compose a message off-line, then send it with a few clicks of your mouse.

No other CompuServe automation program surpasses **Golden CommPass** for efficiency and speed. Now, let's sail into territory where no other program can go!

## Golden CommPass brings out the best in OS/2.

It looks great, with easy-to-change fonts, colors and window sizes, and it abounds with attractive and practical features including:

- Graphical objects that represent each task and its current status.
- Dialog boxes with clear and concise information on options and settings.
- "Bookmarks" to tag messages you'll return to later.
- Full clipboard support to let you cut and paste text between any applications.
- Complete support for uploading files.
- A customizable button bar for frequently used commands.
- A scrollable window to show your on-line communications with CompuServe.
- Context-sensitive help.

**Golden CommPass** takes full advantage of OS/2 multithreading. For example, you can:

- Read messages from one forum while retrieving subject lists and messages from others.
- Upload a technical support question while writing a message reply in a window that splits to let you view the original message.
- Install a new printer driver you just downloaded while **Golden CommPass** gets your mail.
- Select your on-line tasks in any order and work with each as soon as it's processed.
- Collect messages and download files error-free in the background, without any significant impact on CPU space utilization.
- Open multiple windows and work simultaneously with multiple files.

**Now, that's the way to converse with CompuServe!**

Whether you're a new or long-standing CompuServe member, **Golden CommPass** will help trim your billable connect time from the very first use, and you'll command superior resources for managing information both on-line and off. **We guarantee it.**

**Golden CommPass** sells for \$99.00 and can quickly pay for itself. Skeptical? Try our evaluation version. Log on to CompuServe and type **GO COMMPASS** at any prompt.

**CompuServe** links you to the vast and exciting realm of on-line communications.

**Golden CommPass** guides you through with unprecedented ease and productivity.
